

## **Far From Your Heart**

*Capo on 3<sup>rd</sup> fret:*

**Intro: Chords from 1<sup>st</sup> half of chorus**

**Bm**            **Bm/A**            **G**  
Would it hurt to stay with Me one hour?  
**Bm**            **Bm/A**            **G**  
Can't you stand to sing the last refrain?  
**A**            **E/G#**            **G**  
You sit there staring at your watches  
**D**            **G**            **A7sus** **A7**  
Don't you know you're causing Me more pain?  
*(same chords as verse 1)*  
Did you really think I'd never notice?  
That's because you don't believe I'm here  
I sat beside you Sunday morning  
And you never knew that I was near

**D** **G**        **A7sus**            **A7**  
I'm close to your lips (when you're cursing My name)  
**D** **G**        **A7sus**            **A7**  
Far from your heart (and you worship Me in vain)  
**Bm** **Bm/A** **G**  
Close to your lips  
          **D/F#**        **Em9**            **A7sus**  
Far from your heart.....Your heart

*(same chords as above)*

Twenty four times seven hours I give to you  
And you act like one's a sacrifice  
You're only going through the motions  
But your heart is always somewhere else  
That's how you value what I've done for you  
This is how you show Me that you care  
Your empty words will perish with you  
Because your heart was never there

I'm close to your lips  
(when you're cursing My name)  
Far from your heart  
(and you worship Me in vain)  
Close to your lips  
Far from your heart  
Your heart

**D**    **G**            **A7sus** **A7**  
All I ever really wanted  
All I ever really wanted
